

# 12 Year Old Relieved of Daily Headaches... Likes To Do Homework Now!

"I came to The New Life Chiropractic Center because I had constant headaches, and my back was hurting a lot. I am 12-years-old. I had pain and headaches pretty much everyday. The pain would go into my arms and legs.

"I went to the doctors, and they gave me lots of medicine. I was living on Ibuprofen every day."

My Mom saw your ad in the newspaper and decided to have me try it. I thought chiropractic would help me. I really didn't have any doubts. My medical doctor didn't think it would help and said he didn't like the idea of me coming here.

I thought everyone was nice, and it was a nice place to come. I noticed that after the first week, I could see that I wasn't getting headaches. I would tell anyone who is in pain to come here because it works!

I am happy I came here because I can concentrate on my schoolwork, and I sit up straighter. It's nice to be able to do my homework without worrying about a headache."
